

## **BORIIS2 Users Group (BUG)**

Meeting 2

June 23, 2023 12 Noon – 1:30 p.m.

on Zoom

<https://us02web.zoom.us/j/86744776497?pwd=ektuaDk5NHorcVd5YkY2SWkvaFYvZz09>

### GOALS

Describe and understand database queries where the entry point is via geography or spatial extent: What rare species occur on this Preserve? What rare species occur within a certain distance of this point? Etc.

### AGENDA

1. Welcome and introduction round-robin.
2. Updates — David Gregg
  - a. Review Shared Drive access and docs
  - b. Questions from last time?
3. “The Spatial Component”
  - a. Examples of the **NON**-spatial component for comparison
  - b. Users describe existing or anticipated data scenarios involving geography

Please come with examples of geographically arranged questions from your own work

Examples:

- Do you manage parcels one at a time and want to know what lives there?
- Do you review grants or permits and want to know about location and viability at the point level?
- Do you work at a town level and want to know about things town-wide? Watershed?
- Are you looking at trends statewide or among areas of the state (e.g. coastal vs inland, urban vs rural)?

4. Next steps and Next meeting  
David Gregg
